COMPLETE NUTRITION FOR THE MIND AND BODY

Simply SBGA is an even blend of Super Blue Green® Alpha Sun and Omega Sun algae in powder form.

Alpha Sun is the whole, complete algae, and provides essential fatty acids, proteins, complex sugars, vitamins, minerals, and essential amino acids. Because its cell walls are composed of peptidoglycan (carbohydrates and peptides), lipids (oils), polysaccharides (sugars), and proteins, Alpha Sun provides an easily digestible natural complex that is critical for the health and vitality of tissues and cells. Alpha Sun also contains high concentrations of easily assimilated vital minerals and amino acids.

Omega Sun is the heart of the algae with the cell wall carefully removed through our special separation process. Omega Sun is an abundant source of raw materials for enhancing brain activity. The amino acids found in Omega Sun are the building

Nature's Extraordinary Gift

Algae is the fundamental basis of the entire food chain—the foundational nutrient source for creating and renewing all life on earth. *Aphanizomenon flos-aquae* is the *crème de la crème* of algae, one of the planet's most powerful foods. Tucked away in the Cascade Mountains of southern Oregon, fed by a network of mountain streams and springs, anchored in deep volcanic soil and 35 feet of mineral-rich sediment, Upper Klamath Lake is one of nature's most miraculous nutrition resources of *Aphanizomenon flos-aquae*. This single-celled organism is richly endowed with a vast array of easily assimilated nutrients, including essential fatty acids, active enzymes, vitamins, amino acids, minerals, protein, complex sugars, and phytonutrients.
