

The Four Building Blocks of Functional Nutrition

StemPlex[®]

simpleXity
HEALTH

Promotes Adult Stem Cell Renewal*

All of our products are designed to effectively address the body's need for one or more of the **Four Nutritional Building Blocks of the Functional Nutrition Health Model**.

StemPlex[®] belongs to the **Renew with Specialized Nutrition** building block. Some of the health benefits and key product attributes include:

- ◆ *May increase the growth of adult stem cells, as shown in laboratory studies**
- ◆ *Supports the body's natural renewal system**
- ◆ *Provides micronutrition that enables stem cells to flourish**
- ◆ *May protect existing stem cells from the daily harmful effects of free radicals**
- ◆ *Contains premium organic blue-green microalgae*
- ◆ *Contains antioxidant-rich natural ingredients*
- ◆ *Based on the latest scientific research*

60 Vegetarian Capsules
USA Item # 21-323

StemPlex[®] is a unique combination of natural ingredients that work together to support the growth of adult stem cells as suggested by *in vitro* (in a test tube) research.* Research indicates that these nutrients can help promote natural renewal by means of an interaction with stem cell populations.* The **StemPlex[®]** formula helps this process in two ways. First, the ingredients provide nutrition for stem cells to reproduce. Second, via its antioxidant capacity the formula may protect existing stem cells from the harmful effects of free radicals; this is especially important because during the natural aging process, adult stem cells are known to have a reduced regenerative capacity.

All of the ingredients in this exceptional formula indicate increased proliferation of adult stem cells *in vitro* (in a test tube); when they are combined, the increase is even greater.* Natural green tea extract helps to support normal cholesterol levels when levels are already in a normal range, the digestive and respiratory systems, and the health of skin tissue.* Wild blueberry supports the health of the brain, heart, urinary tract, and eyes.* Blueberry extract further promotes maintenance of healthy cardiovascular, joint, and urinary tract function, and glucose levels already within normal limits.* Carnosine is an antioxidant amino acid that may delay the natural aging of cells and extend the lifespan of adult stem cells.* Vitamin D supports adult stem cell renewal and helps these cells become immune cells.* Organic **Omega Sun[®]** microalgae extract adds nutrients that increase the efficacy of the patented base formula.*

Developed by leading university scientists, this remarkable formula may assist in the propagation of adult stem cells, which, when combined with proper diet and exercise, support the maintenance of optimal health.*

StemPlex®

What are Stem Cells?

There are two basic types of stem cells—embryonic and adult. While controversy surrounds the use of embryonic stem cells, no such debate exists with the use of adult stem cells, which are naturally occurring in the body. All stem cells are capable of dividing and renewing themselves for long periods of time, and they can give rise to specialized cells. According to the National Institutes of Health, stem cells have the remarkable potential to develop into many different cell types in the body. When a stem cell divides, each new cell has the potential to either remain a stem cell or become another type of cell with a more specialized function, such as a muscle cell, a red blood cell, a skin cell, etc. When released, new stem cells help areas of the body that often need more attention as we grow older. Serving as a repair system for the body, stem cells can theoretically divide without limit to replenish other cells as long as a person or animal is alive.

What people are saying...

"After three weeks of taking StemPlex®, my days were totally transformed. It's exciting to feel so great. I am able to remain active all day, which I have not been able to do for awhile. This is a complete transformation, from needing to take numerous breaks throughout the day to routinely forgetting to stop for lunch. Thank you for this awesome product and for giving my life back to me!"—Mary

Supplement Facts

Serving Size: 2 capsules

	Amount Per Serving	% Daily Value*
Vitamin D (cholecalciferol)	2000 IU	500%
Proprietary Blend	0.96 grams	†
Green Tea (leaves) Extract		
Wild Blueberry (fruit)		
Carnosine		
Wild Blueberry (fruit) Extract		
Organic Microalgae (<i>Aph.flos-aquae</i>) extract		

* Percent Daily Values are based on a 2,000 calorie diet.

† Daily Value not established.

Other Ingredients: Plant fiber, maltodextrin.

Suggested Use: 2 capsules each day.

Consult your health care professional if you have a medical condition or are taking any prescription medication.

Keep in a cool, dry place.

Certifications: Halal.
