

# Food FOR Thought

Inspired by Cell Tech Distributors    Sharing a Passion for Your Health    Volume 4, Issue 12

## Cell Tech Long-Term Customers Speak Out

Customers who use Cell Tech products daily report frequently that their friends or spouses tell them, "You look so much younger." The reason may be found in the products' raw materials and key ingredients, named by nutritionists as essential for maintaining health and youthfulness. Enzymes, probiotics, and antioxidants microblended with wild blue-green algae have synergistic qualities that offer a rich source of the "Nourishment from Nature"<sup>™</sup> needed to maintain vitality at any age.

Dr. Karl Abrams, chemist, educator, and author of *Algae to the Rescue! Everything You Need to Know about Nutritional Blue Green Algae*, summarizes the impact of this extraordinary wild food: "As a chemist and

### Canadian Physician Touts Algae's Benefits

It seems that Super Blue Green<sup>®</sup> Algae (SBGA) is so full of life that it has the power to give us the nutrients our bodies crave in order to begin to do necessary repair work, and to give us the energy to begin to transform our lives, change our diets, exercise, and improve our personal relationships. Eating SBGA for 12 years has given me the opportunity to work better and longer and to stay more emotionally balanced. I am so grateful to have this powerful tool to share with my patients and my family.

—Christopher Hassell, M.D., C.C.F.P.

### Young Family Thrives on Superfoods

I feel very fortunate that I was introduced to Cell Tech's superfoods more than seven years ago. Since then I've married and have had three "algae babies" while working full-time. We certainly rely on the energy, mental clarity, and vitality that we experience every day. We feel that we are realizing the long-term benefits that positively affect our aging.

—Stacie Noble, M.D.

### Busy Businesswoman Discovers Energy for Life<sup>®</sup>

I use all of the basic products (Alpha, Omega, enzymes, probiotics, and antioxidants). I love them all, and I am also really enjoying ImmuSun<sup>®</sup>. Over these many years (13), my energy rarely flags though I take on more and more. Joyfully I begin each day with full energy to do the things I love.

—Ruthann Jahoda, organic grower, nutritional consultant

### Health Author Advocates Algae Products

I have used and recommended Cell Tech superfoods since 1988. I have toured Cell Tech's harvesting and manufacturing sites many times over the years. Their stance for wild, organic, whole, earth-based supplements makes them one of the best sources for superfoods.

—Scott Ohlgren, wellness speaker, author of *Cellular Cleansing Made Easy and Real Food, Real Health*

a man of science, I've been determined to unlock the scientific secrets of the superfood that changed my life...nutritional blue-green algae provides the least expensive source of the most essential nutrients for a long and happy life!"

Algae-enhanced products provide unique, unparalleled support for all the systems of the body in a natural food base that is easily absorbed by people and animals of all ages. They offer life-giving properties to support our bodies, minds, and spirits as we age gracefully with radiant, glowing health.

Consistency is the key to maximizing these benefits. Long-term customers reveal how more benefits unfold with each passing year.

### Automatic ReOrder Program Supports Long-Term Health

I've ordered Cell Tech products every month since February 1987 because of the health benefits they give me. Now that we have a discounted Automatic ReOrder program, I love getting 10% off, reduced shipping rates, and a free gift certificate after every twelfth order!

—Hannah Ineson, artist, businesswoman

### Unique Supplement Provides Consistent Positive Results

From the first time I tried it 17 years ago, I knew algae was a very special source of nutrition. Healthy traditional foods have always been an interest of mine, and of all the foods and supplements I have consumed over the last 25 years there is nothing that compares with the consistent positive results I have received from Super Blue Green Algae. Words cannot express the gratitude I have for this extraordinary product, and for the people and company that make it possible.

—Steve Gagne, whole-foods teacher, author of *The Energetics of Food*

### Products Help Fuel Busy Lifestyle

My life would look a lot different if I had to go without the support of these nutritionals. I feel so good! I love the Essentials for the convenience. A packet every hour is a good way for me to be at my best. I often eat six to eight Super Q<sub>10</sub> throughout a day. I think living each day is often a feat of endurance!

—Kate Rander, professional baker, businesswoman

### Nutrition Counselor Recommends Essentials for New Clients

Within two weeks of beginning with SBGA products 16 years ago, my wife Megan and I felt a remarkable quality of physical energy and mental alertness. Our sons (both athletes) have had the products their entire lives. We look and feel younger than most of our peers. In my practice, a recommendation of Cell Tech Essentials is one of the most important first steps I take with new clients. We will not be without them, ever!

—Russell Mariani, M.A., health educator and counselor

### "Staple Foods" Nourish Growing Family

I feel blessed that my family and I have been profoundly nourished by the Cell Tech products for the last 16 years. Thank heavens my three vibrant, smart teenagers were raised with the convenience of the products. I also greatly appreciate the wonderful new products that Cell Tech has introduced over the years. The Cell Tech products are staple foods for my family!

—Mark Segars, natural foods business owner

## **Long-Time Distributor Observes Positive Benefits for Thousands**

Over the 17 years I've been eating the algae, I've seen many, many thousands of people's lives changed, ranging from "minor" improvements of everyday issues to life-changing epics of the most dramatic type. For me, the biggest impact has always been on my outlook—the big picture. I started thinking far more positively, and bigger, much bigger. It is, after all, the earth's first food: it's where it all started. When you look at it that way, wouldn't you expect it to have an impact on the big picture?

—John David Mann, *writer/editor, business owner*

## **Centenarian Maintains Quality of Life**

My mother-in-law, a consumer of our products for 8½ years, lived to be 100! She started with probiotics (because elimination was a big problem), then enzymes, followed by Omega Sun®, Alpha Sun®, and Super Q10. After she moved to an assisted living facility, I supplied the Essentials packets plus the Super Q10 and extra enzymes. It made it so easy for the caregivers; they said they had never had anyone like her who didn't need "meds." I know the Cell Tech products helped her to live a healthy, long life. The elderly need our products!

—Susie Bottomley, *businesswoman*
