

Super Nutrition for the Whole Family... Fido too!

Now your whole family can eat from the same container!

Simplexity Health has more simple solutions for today's complex lifestyles. Now your family can enjoy the benefits and convenience of three powerhouse products in one!

APA Blend offers more nutrition in a teaspoon than some complete lunches or dinners. Get your algae, probiotics, antioxidants, and even enzymes in a powder you can shake on or mix with a variety of dishes. And with APA Blend Plus, you also get the benefits of glucosamine that supports joint health!

Simplexity Health's APA Blend provides nutritionally-dense Super Blue Green® Alpha Sun® algae, Spectrabiotic® (our exceptional mix of probiotics and enzymes), and antioxidant-rich wheat sprouts in a convenient powder. **APA Blend Plus** provides all those nutrients, plus 700 mg of glucosamine per teaspoon.

Alpha Sun contains a unique array of micronutrients for general well-being. **Probiotics** supply friendly bacteria that are essential to the health and balance of the gastrointestinal tract. **Sprouted grains** are among the best sources of antioxidants, which are a major defense against free radicals that can cause oxidative damage to cells and are partly responsible for negative changes associated with aging and various health problems. **Enzymes** are needed to digest foods.

Both of these remarkable blends give you a superior combination of nutrients that help balance your body's internal ecosystem—naturally. Each serving is also rich in essential fatty acids, trace minerals, and phytonutrients for overall health, all in easy-to-use powder form.

How much to eat? One teaspoon of APA Blend (or APA Blend Plus) is equal to approximately four capsules of Alpha Sun, two capsules of Spectrabiotic, and two capsules of wheat sprouts. You can gradually increase the amount of this superfood as you see fit. Mix into a morning smoothie, add a dash on a sandwich, put into your favorite salad dressing, sprinkle on Fido's food, stir into juice for a pick-me-up. Let your imagination be your guide...after all, it's a food!

How easy can great nutrition be? Just shake it, spoon it, and eat it—that's how easy!
