It's that time of year again. The time of year when we all give thanks for our many blessings and cherished loved ones not only in the United States, but globally as well. It's also the time when we give thanks before sitting down to our Thanksgiving holiday feast, and later we especially give thanks for those wonderful **Simplexity Health ENZYMES!!**

Plant-based micronutrients provided by nature are refined by Simplexity Health for use in **SBG Zymes®** and **SBG Zymes® Plus**. Both include MycoProZyme™, the first enzyme on the market that works in a low pH environment.

With thirteen active enzymes as well as cayenne, fennel, ginger, and organic blue-green microalgae, **SBG Zymes® Plus** add that extra punch needed to handle a heavy holiday meal.

What a wonderful feeling, just knowing that you can stuff yourself like a Thanksgiving turkey, but have all the digestive power of **SBG Zymes®** and **SBG Zymes® Plus** to help your body digest and absorb all the vital nutrients from a wide range of foods.

With their energizing digestive nutrition that includes wild-crafted, organic blue-green microalgae, these powerful enzymes will also help prevent an energy lull after meals.

## As a special bonus...

**We now offer an attractive Balmoral glass lidded jar (with a Simplexity Health logo) for only \$6.00!**
